Bert de Vries

Professor of Natural Artificial Intelligence
Eindhoven University of Technology (BIASlab)
Flux Building, Groene Loper 19, 5612 AP Eindhoven, the Netherlands
tel. +31-619-222-046
email bert.de.vries@tue.nl, web http://bertdv.nl
last edit: 5-Oct-2021

PRINCIPAL INTERESTS

Nature-inspired artificial intelligence and (Bayesian) machine learning, signal processing, computational neuroscience, research management, technical writing; typical applications to multimedia processing, robotics and medical devices.

ACADEMIC BACKGROUND

PhD Electrical Engineering 1991
University of Florida, Gainesville, FL

- PhD research in signal processing under direction of prof. Jose C. Principe. Dissertation title: Temporal processing with neural networks–the development of the gamma model.

MSc Electrical Engineering 1986
Eindhoven University of Technology (TU/e), Eindhoven, the Netherlands

- Focus areas: medical engineering (thesis: intelligent alarms during anesthesia) and digital communications.

EMPLOYMENT HISTORY

Full Professor 2012 - Present
Eindhoven University of Technology, EE dept., BIASlab, Eindhoven, Netherlands

- History: research fellow 2005-2012; part-time professor (1 day/wk) 2012 to Sep-2021; full-time professor since Sep-2021
- Founder/director BIASlab research laboratory, 2012 - present
- Program Leader Master Artificial Intelligence in Engineering Systems (AIES), 2021 - present
- Research on Natural Artificial Intelligence, 2012 - present
- Teach graduate class on Bayesian Machine Learning and Information Processing, 2005 - present
- Inaugural lecture: In Situ Personalization of Signal Processing Systems; lecture at youtube, 2013

Principal Scientist 1999 - Present
GN Hearing (Philips Hearing Technologies until 2001), Eindhoven, Netherlands

- full-time 1999 to Sep-2021, part-time since Sep 2021
- Research PI on low-power signal processing technology for the next generation of digital hearing aids
- Leadership/management tasks include(d) all aspects of team and project management (teams of about 10 engineers); (responsible for) the corporate DSP research track, including the roadmap, budget and management; initiating and managing key studies at academic institutions and contract research organizations

- Other engagements at GN include(d): Technology Leader ('99-'01, Philips), Manager External Research ('01-'08), Head DSP Research ('08-'11), DSP Functional Leader ('11-'14), Key Opinion Leader ('14-'20)

Member Technical Staff 1992 - 1999
SRI International (previously Sarnoff Corporation), Princeton, NJ

- Research in advanced signal processing algorithms, initiating new technical and commercial thrusts, technical proposal writing and project management
- Principal investigator of funded projects on keyword spotting, digital hearing aids signal processing, speech enhancement and noise-robust speech recognition (co-PI)
- Co-initiated and developed signal processing in financial markets program at Sarnoff
- Member medical image processing research team. Funded projects include blind signal processing for breast mammography and perceptually optimized image coding
- Other engagements at SRI included: Postdoctoral fellow ('92-'93)

AWARDS

- *TU/e EE dept. Innovation Research Award* (150K euro) for "research on Bayesian Intelligent Agents", TU Eindhoven, EE department, Jan. 2019
- *Return-on-Performance Award*, for "technical work on Speech Enhancement technology", Sarnoff Corporation, 1998
- *David Sarnoff Achievement Award*, for "leadership and technical contributions in the area of adaptive speech enhancement", Sarnoff Corporation, 1997
- *David Sarnoff Event Focus Award* for "Winning Sarnoff's First Commercial Contract for Speech Processing", David Sarnoff Research Center, 1996
- *Presidential Recognition Award*, University of Florida, 1988
- *δ-Butterweck Award* (awards top GPA), Technical University Eindhoven, 1984

RESEARCH FUNDING

Research at TU/e focusses on transferring nature-inspired artificial intelligence.

- 1M euro (2022-2025), financial support for 4 PhD students by GN Hearing and TU Eindhoven in the context of a "mini-impulse" research program on *Automated Design of Augmented Hearing Realities*.
- 450K EUR (2021 - 2025), funded by TU/e EAISI institute. Together with Burcu Gumuscu Sefunc, Robert Peharz, Wouter Kouw and Regina Luttge, to support 2 PhD students for research on *BayesBrain: The World's First Brain-on-Chip AI computer*.
- 1M euro (2018-2022), financial support for 4 PhD students by GN Hearing and TU Eindhoven in the context of a "mini-impulse" research program on *collaborative hearing*.
- 750K euro (2018 - 2022), together with Henkjan Huisman and Henk Corporaal to support 3 PhD students, from NWO for research on *deep learning for human and animal health*, in the context of Efficient Deep Learning.
- 550K euro (2017 - 2021), together with Sander Stuijk and Henk Corporaal, supporting 3 PhD students, from NWO to pursue research on *Autonomous Acoustic Systems* in the context of energy-autonomous systems for IoT.

- 500K euro (2015 - 2019), together with Tjalling Tjalkens, supporting 2 PhD students, from Dutch Technology Foundation STW to pursue research on Data-driven Hearing Aids.
- 500K euro (2014 - 2018), supporting 2 PhD students at TU/e, from GN ReSound to support research on hearing aids personalization.
- 130K euro (2006 - 2008) from GN ReSound to support 2 PDEng students at TU/e.
- 650K euro (2006 - 2010), together with Tom Heskes and Wouter Dreschler, from STW to pursue further research on Personalization of Hearing Aids through Bayesian Preference Elicitation.

PROFESSIONAL SERVICE

- 2021 - present, Program Leader interdepartmental master Artificial Intelligence Engineering Systems (MSc AIES) at TU/e.
- 2017 - present, Chair User Committee NWO Perspective Program ZERO (P15-06)
- 2020 - present, TU/e, Member sounding board MSc AIES.
- 2020 - Member program committee for "Artificial Intelligence: Methodology, Systems, Applications" (AIMSA-2020) conference.
- 2012 - 2018, Associate Editor for IEEE Transactions on Neural Systems and Rehabilitation Engineering
- 2012 - 2015, Invited member annual European Mathworks Advisory Board meetings,
- 2010, Invited jury member for Open Technology Program (OTP) research proposals to Dutch Technology Foundation (STW)
- 2005, 2006, Invited DSP expert on IWT (Flemish Institute for Science and Technology) panel to evaluate candidate PhD proposals, Brussels
- 2002, Organizer/chair special session "DSP for Intelligent Hearing Aids", ICASSP 2002, Orlando, FL
- 1997, 1998, Publicity chair, Neural Networks for Signal Processing Workshop, Amelia island, Florida (1997) and Cambridge, UK (1998)
- 1998, Session chair Non-linear Systems Identification, ICASSP-96, Atlanta, GA (1996) and IEEE NNSP-98 Workshop, Cambridge, UK
- 1995 - 1998, (Elected) member of "IEEE Technical Committee on Neural Networks for Signal Processing Society"
- 1993, Invited researcher in government sponsored "Robust Speech Processing Workshop"
- 1986 - present, Member of various professional societies (e.g. IEEE, INNS)

TEACHING

- *Bayesian Machine Learning and Information Processing (5SSD0)* 2020-present
  Graduate class on the fundamentals of Bayesian machine learning.
- *Adaptive Information Processing (5SSB0)* 2005-2019
  Together with dr. Tjalling Tjalkens, core graduate class on the fundamentals of machine learning.
- *Development of (Electro)-technology* 2011-2017
  Guest lecturer for introductory EE course

INVITED LECTURES (SELECTION)

- *"Hot or Not" conference*, organized by Sioux Technologies, keynote on "The Future of AI Technology" (youtube video), Eindhoven, June 2021
- *Awesome IT 2021*, Nature-inspired AI for Automated Design of Signal Processing Systems, Amsterdam (online), April 2021
- *NVA (Dutch Institute for Audiology) winter meeting*, "The next ten years of AI for Hearing Device Design", Utrecht, Feb 2020
- *GN Hear More 2019* keynote, "Precision Audiology: how AI will affect the hearing care professional", Kuala Lumpur, Sep 2019
- AI Insight Talk at Google Amsterdam, "Automated Natural Design of Signal Processing Algorithms", Amsterdam, 17 May 2019
- Design, Automation and Test in Europe conference (DATE-2019), "Automated Signal Processing Design through Bayesian Model-based Machine Learning", Florence (Italy), 28 March 2019
- Annual conference Kring Klinische Audiologie, "In-situ Personalization of Hearing Devices", Putten (NL), Nov. 2017
- University College London (UCL), "A Factor Graph Approach to Active Inference", Nov. 2016
- Cochlear/ReSound Event, Keynote lecture on "The Future of Hearing Aid personalization", Sep.2016
- WIC Mid-winter meeting on 'Big Data and Data Analytics', "Design of Signal Processing Algorithms through Probabilistic Inference", Eindhoven, February 2016
- CQM (Consultants of Quantitative Methods), "In Situ Machine Learning for Signal Processing Systems", Eindhoven, August 2015
- Radboud University Nijmegen, "Probabilistic Hearing Loss Compensation", Nijmegen, March 2015
- INCAS3 Institute, "In Situ Personalization of Signal Processing Systems", Assen, October 2014
- Leiden University Medical Center, New Year's keynote lecture on "Personalization of Medical Signal Processing Systems", Leiden, January 2014
- Int'l Symposium on Auditory and Audiological Research (ISAAR), "Is Hearing Aid Signal Processing ready for Machine Learning?", Nyborg (DK), August 2013
- Clinical Physicist Post-graduate school,"The Future of Hearing Aids", Amersfoort January 2013
- Delft Univ. of Technology, "Machine Learning for Hearing Aids Technology", Delft March 2012
- International Forum for Hearing Instrument Developers, "Bayesian Machine Learning for Hearing Aid Design, Fitting and Personalization", Oldenburg (Germany), June 2011
- University of Florida, "Machine Learning Trends in the Hearing Aids Industry", Gainesville, FL, April 2010
- SIKS Research School, "Gaussian mixture models and the EM Algorithm", Vught, NL, Dec 2008
- GN Nordic Audiology College, "Learning technology in hearing aids", Oslo, Norway, Sep 29, 2006

- University of Nijmegen, "Machine learning for hearing aids", Nijmegen, Netherlands, June 2004
- University of Florida, "DSP for modern industrial hearing aids", Gainesville, FL, January 2004
- International Forum for Hearing Aid Developers, "Warped-frequency filterbanks", Oldenburg, Germany, July 2003
- Keynote address "An industrial perspective on intelligent hearing aids" at 2nd McMaster-Gennum Workshop on Intelligent Hearing Instruments, Niagara-on-the-Lake, ON, Sep 2001
- NIDCA/NASA/VA Hearing Aids Improvement Conference, May 1997
- Lucent Technologies, Bell Laboratories, November 1996
- AT&T Research, Murray Hill, NJ, July 1996
- NSA (U.S. Government), June 1993
- Neural Network Workshop, Rutgers University, October 1992
- David Sarnoff Research Center, October 1991

MEDIA / INTERVIEWS

3. Implementing Active Inference by Message Passing in a Factor Graph, ActInfLab ModelStream 004.1 (at youtube), Aug 2021
2. Slimme gehoorassistent, IO Magazine, Dec 2019
1. Introducing Data Science: Hearing Aids on the Brink of a Paradigm Shift]. Interview in Audiology Info Magazine, Dec 2014

PATENTS
